One can hardly forget one's childhood memories whether pleasant or painful. I can still remember my childhood very much. I was born in a village in the
district of Shariatpur where I passed my childhood. Many things happened in my childhood days; but I cannot remember all of them. I can remember the happy days with my parents. I often played with my mother. Sample Answer 1: Childhood memories are strange things because sometimes you can’t quite be sure if you really remember something, or if you just think you do because others have told you about it, or you have seen a photo of the event later on. I’m going to talk to you about a memory that I’m very confident is real. I’ll tell you what it is, when it happened, how it affected me and why I still remember it. Thank you for this great cue card topic. The memory is the earliest one I have of me and my Dad. I was very small indeed, I’m not exactly sure how old, but I’d guess about three years old.
